## **News Release #31 – EPA to transition response oversight to TCEQ**

For release at 9:00 p.m.

December 13, 2019

**Port Arthur, Texas** – Response efforts continue to focus on activities to secure site equipment and minimize impact to the environment, while preserving the safety of emergency responders and the community.

As response efforts continue to progress, the U.S. Environmental Protection Agency is transitioning response and cleanup oversight to the Texas Commission on Environmental Quality effective Friday, December 13, 2019.

Jefferson County Judge Jeff Branick, the Jefferson County Office of Emergency Management, EPA, TCEQ and TPC Group will continue to operate as Unified Command and communicate with EPA.

Sustained air monitoring samples confirmed no actionable levels of butadiene in the community. Additionally, there has been no impact to drinking water or surface water quality around TPC Group Port Neches Operations.

TCEQ and TPC Group continue to conduct air monitoring, air sampling and surface water sampling activities. Any reduction in the air monitoring/sampling activities would require TCEQ State on Scene Command approval.
